City of Hamilton Directory.

1856.

THE Publisher, in presenting this work to the public, deems it necessary to make a few explanatory remarks. Probably, there is no department of book-making in which errors are more likely to be made than in the compilation of a Directory—errors, too, which the public are generally unwilling to excuse. The obtaining of the names, with their profession and residence, and their alphabetical arrangement, is attended with far greater difficulty and more trouble than most people imagine; and, notwithstanding the greatest care has been taken, and the most strenuous exertions made to have the work correct, the Publisher will not be surprised if some few errors are discovered. But, he thinks, it is as perfect as a work of this description can be made under existing circumstances.

It would make a Directory much more valuable were the houses of the principal streets numbered, and, as there appears to be a universal desire on the part of business men that this should be done, it is highly probable that the present City Council will take the matter in hand. The Publisher will bring the subject before that body at an early day, and it is hoped that the houses will be numbered by the time a new Directory is required.

The Publisher trusts that his patrons will overlook imperfections which may be found in the present volume, and as it is his intention to continue the publication of the Directory as often as is thought desirable, he hopes to profit by the experience he has had, and be enabled to make many valuable improvements in succeeding issues.

HAMILTON, from its geographical position, its peculiar natural advantages, and through the indomitable energy and enterprise of its citizens, has, within the past few years, made rapid advances toward becoming the chief Commercial City in Canada.

But a few short years have passed away since the site on which now stands the crowded city, with its stately edifices and its elegant residences, its thronged streets, and its marts and factories teeming with life and business activity, was a dense forest, the hunting ground of the Indian, and the home of wild animals and beasts of prey. It was not many years ago that the waters of our beautiful harbor, which now bear upon their bosom

magnificent steam-ships, and vessels of every grade, bringing to our port the treasures of other lands, and conveying to Eastern markets the products of the West, were calm and unruffled, save when the red man launched his bark upon the blue expanse, or when lashed into fury by the angry tempest.

Although, comparatively, the youngest of Canadian towns, it has outstripped many of the older and more favored places, and is now only second in importance to the capital of Canada. It is the principal wholesale mart of the Western Province; and if it progresses in the same ratio as in the past five years, it will soon leave in the distance even Toronto, and become what Nature has intended it to be, and what its enterprising citizens are determined to make it, the first of Canadian cities. Situated as Hamilton is, at the head of lake navigation, and in the very centre of the finest grain-producing country in America, with Railways, completed and prospective, diverging in various directions through the best settled and wealthiest portions of the Province, it is destined to a mighty future.

Hamilton was laid out in the year 1813, but for many years it progressed but slowly, so that we find, in the year 1837, the inhabitants numbered only 3,567. From 1837 to 1841—four years—it made little or no progress. The census of the latter year reported a population of 3,446, showing a decrease in the four years of 121. During the succeeding four years, the population nearly doubled, and by the census of 1850 we find that the number of inhabitants had increased to 10,248. From that period to the present the City has progressed with almost unexampled rapidity. The commencement of the Great Western Railway gave an impetus to all kinds of business. New and substantial buildings took the place of those no longer sufficient for the increased amount of business. Our merchants and mechanics, who had accumulated ample fortunes, employed their surplus means in improving their property. New streets were opened, and handsome edifices sprung up as if by magic in all parts of the City. The population, which had reached 10,000 in 1850, has considerably more than doubled since that period—the estimated number of inhabitants at the present time being 25,000. Increasing in this ratio, we may safely assume that Hamilton in 1860 will number nearly 40,000 inhabitants.

It will be seen by the following that the amount of assessment of real and personal property during the past five years has more than trebled, and since 1852—three years—nearly doubled:

Valuation in 1848,	- - - £60,737	Valuation in 1852,	- - - £105,849
" 1849,	- - - 60,817	" 1853,	- - - 134,353
" 1850,	- - - 61,574	" 1854,	- - - 156,926
" 1851,	- - - 94,259	" 1855,	- - - 190,479

The custom duties on imports into the port of Hamilton for 1850 amounted to £59,000, in 1851 to £74,000, and in 1852 to £86,557. The total value of goods imported into the City for 1853 was £587,914, duties on which amounted to £86,656.*

* The Publisher would have been glad to have furnished the amount of imports and exports for the past two years in detail, but on application to the proper authorities was refused the information.

NOTES.—The parts of all streets (extending north and south) north of King Street, are designated by their names proper, as James Street, Hughson Street, whilst the part south of King Street is denominated Upper, as Upper James Street, Upper Hughson Street, and by the same rule the streets extending east and west; those east of James are called by their proper name, as King Street, while those west of James Street have the prefix of west, as west King Street. In King Street, and all streets parallel with it, the numbers commence at James Street, and run east and west, the odd numbers being on the south side, and the even on the north, viz.: W. P. McLaren's number is 1 King Street, while on the opposite, or north side, Lawson & Brother's number is 2 King St.; also, Canada Life Assurance Office is No. 1, while opposite, Hamilton & Kneeshaw's number is 2. In James Street, and all parallel streets, the numbers commence at King St., and run north and south, the odd numbers being on the west side, and the even on the east, viz.: J. Hutchison's number is 1, and on the opposite side Field & Davidson's is No. 2.

TROUSERS!

A discovery quite new in the FORMATION and CUT of TROUSERS, and one which has been in use for the last twelve months in the United States, and has elicited the approval of all, I have now great pleasure in introducing to the Gentlemen of this City and surrounding districts.

The most important point and advantage of this discovery consists in the total

Disuse of Suspenders!

whilst it gives to the wearer the

GREATEST FREEDOM OF ACTION!
IN ALL EXERCISES;

Relieving the shoulders from the unpleasantness of being unnecessarily confined. In addition to this desideratum, the Materials from which the Trousers are formed are disposed in such a clever and judicious manner as to leave

NO SURPLUS CLOTH WHATEVER.

Gentlemen who study personal comfort, combined with elegance of appearance, and who have hitherto not been enabled to obtain these requisites, are respectfully invited to favor me with an order, when they will be fully satisfied that my Establishment ranks first in this City for the production of this most difficult article of dress.

MY STOCK OF TROUSERINGS,

selected from the Home, American, French and English Markets, is most exquisite, embracing all the greatest

Novelties in Fabrics and Designs!

Introduced this Fall,

And only requires to be seen to be appreciated.

THE undersigned would beg to intimate that he continues to receive applications for FIRE or LIFE ASSURANCE, which will always be effected on most advantageous terms; and he would also call the attention of the public to the superior advantages offered by the ROYAL to parties insuring in this Company.

### **FIRE BRANCH.**

The present income from Fire Premiums alone is £130,000 sterling. The amount of Capital (Two Millions Sterling) would be immediately available to meet any unforeseen calamity; and this fact, together with the well-known character and high respectability of its Directors, forms an unquestionable security to the Assured.

LOSSES SETTLED WITHOUT REFERENCE TO THE BOARD IN ENGLAND.

### **LIFE BRANCH.**

The Capital in this Department having been augmented, in the space of ten years, from £1,500 to the extraordinary sum of £130,000, a bonus of £2 per cent. per annum was declared at the last Annual Meeting upon every Life Policy for each entire year of the Society's existence—so that a Policy effected in 1845 for £1000 has now a bonus attached of not less than £180 as a reversionary sum added to the amount insured,—thus in the short space of ten years outstripping all but two London Offices, some of which have been in operation for a century.

Perry Davis' Pain Killer is the best Medicine in the  
World for Burns, Bruises, Sprains, &c., &c.

And seldom fails to cure Diarrhoea, Dysentery, or  
Cholera.

## Perry Davis' Vegetable Pain Killer STILL TRIUMPHANT.

AND after a thorough trial, by innumerable living witnesses, has proved itself to be the **MEDICINE OF THE AGE**.

Although there have been many medicinal preparations brought before the public since the first introduction of Perry Davis' Vegetable Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to advance in the estimation of the world entirely upon its own intrinsic merits, as the proprietors have not resorted to advertising to gain for it the rank it now holds among the great number of preparations of the present time. The effect of the Pain Killer upon the patient, when taken internally, in cases of Colds, Coughs, Bowel Complaints, Cholera, Dysentery, and other affections of the system, has been truly wonderful, and its success, as an external remedy, in cases of Burns, Bruises, Sores, Sprains, Cuts, Stings of Insects, and other causes of suffering, has secured for it such a host of testimony, as an almost infallible remedy, that it will be handed down to posterity as one of the greatest medical discoveries of the nineteenth century. The effects of the Pain Killer, when taken or used according to directions, are almost certain. You have only to be sure that you buy the genuine article, and adhere to the directions in its use, and you will admit its wonderful medicinal properties.

*The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words Davis' Vegetable Pain Killer blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others can be relied upon as genuine. Prices of bottles, 12½ cents, 25 cents, 50 cents, and \$1 respectively.*

Sold in Hamilton by HAMILTON & MUIR, T. BICKLE & SON, WINER, MOORE & Co., and all respectable Dealers throughout the Province.
